

WORDS OF THANKS

FOR ATTENDING THE EVENT

GREENSTEEL Academy Connect: The Next Generation

Dear Mrs Agata Dudek, Ph.D., Professor at MSc
Dean of the Faculty of Production Engineering
and Materials Technology
Częstochowa University of Technology

We would like to thank the **Częstochowa University of Technology** community for participating in LIBERTY's international GREENSTEEL Academy Connect event.

The Next Generation event provided an opportunity to present the views of our industry experts on the environmental impact of steel production and our GREENSTEEL strategy to become a carbon-neutral steel producer by 2030.

Our experts revealed how we are working on breakthrough technologies to realize our ambitious vision.

The meeting brought together the LIBERTY community across our European sites, which provided Częstochowa University of Technology students with the opportunity to interact with similar groups in other countries and expand their understanding together.
